Panama City, FL (12/14/2011)(Panhandle Orthopaedics) - Head of [Panhandle Orthopaedics](#), Dr. Michael D. Gilmore is offering continuing education courses for workers' compensation adjusters.

Through the course, adjusters will gain a better understanding of the anatomy of the knee; mechanisms of injury found in common workers' compensation claims versus pre-existing conditions; typical conservative treatment & surgical procedures; rehabilitation; and impact of the above on Return to Work.

Dr. Gilmore recently conducted one of these half-day classes in Atlanta, which count toward continued education credits for adjusters.

"This course is designed to better educate workers' compensation adjusters on knee injuries so they can make the most accurate decisions on injury levels, duration and corresponding compensation for claims," said [Michael D. Gilmore MD](#).

Proudly serving patients in Florida's panhandle from Pensacola to Tallahassee and southern Alabama and Georgia, Panhandle Orthopaedics was formed in 2005 by local [orthopaedic surgeon](#), Michael. D. Gilmore, M.D. By providing unparalleled service and care to their patients, Panhandle Orthopaedics has grown to be one of the area's leading centers for orthopaedic services.

Their skilled team provides a continuum of care ranging from conservative treatment to surgical intervention in every area of orthopaedics. A full service orthopaedic clinic, patients will find a high level of comprehensive care and service for Sports Medicine & Arthroscopic Surgery, Disorders of the Spine, Foot & Ankle Surgery, Hand Surgery, Physical Medicine & Pain Management, and General Orthopaedics.

"At Panhandle Orthopaedics, our patients are always our first priority," Dr. Gilmore went on to say. "We are continually training our staff and working to improve our practice as part of our commitment to provide every patient with the highest quality of orthopaedic care possible."
